

Creating ecological solutions through innovative engineering

AutoCAD Technician

Wildlands Engineering is seeking a dynamic individual to join our growing company in our Charleston, SC office. Applicants must demonstrate progressive career experience with and knowledge of AutoCAD Civil 3D, including alignments, profiles, corridors, and surface (earthwork) modeling. Experience with construction document production, technical reporting, construction cost estimating, and construction administration is preferred, but not required. This position may require occasional overnight travel and the applicant must be capable of supporting fieldwork.

Please submit resume and a cover letter by **SEPTEMBER 28, 2018** to resumes@wildlandseng.com and include "Wildlands Engineering – CHS CAD" in the subject line of the email. The cover letter should identify relevant experience, your approximate available start date, and any other information that differentiates you from other applicants. Please be prepared to provide contact information for references.

Company Information

Wildlands Engineering, Inc. was founded in 2007 as a firm focused on environmental restoration of the southeast United States. With offices in North Carolina, South Carolina, and Virginia, Wildlands Engineering provides water resources engineering, ecosystem restoration, mitigation banking, and consulting services to clients such as local and state government, developers, and conservation organizations. Our dedicated, motivated, and highly-trained team members possess a combined 452 years of experience in all aspects of stream and wetland restoration, watershed planning and assessment, and water quality management. We blend our technical expertise with our knowledge of the regulatory environment to offer solutions that bridge the gap between environmental needs and economic realities. Wildlands Engineering is committed to a watershed and ecosystem approach to ecological restoration and water quality management, and we provide exceptional services to our clients in an uncompromisingly ethical, innovative, and time-sensitive manner.

Major services provided include:

- Stream, Wetland, and Habitat Mitigation
- Stream and Wetland Restoration
- Water Quality Management and Mitigation
- Watershed and Environmental Planning
- Stormwater Management

Wildlands Engineering, Inc. is an equal opportunity employer and maintains a drug-free workplace.
