

*Creating ecological solutions through innovative engineering*

## **Senior Environmental Scientist/Program Manager**

Wildlands Engineering, Inc. is seeking a motivated individual to join our growing team in our Charlotte, NC office. In this role, an individual will work with a multi-disciplinary team that leads geomorphic monitoring surveys, vegetation surveys, and groundwater monitoring related to the design, construction, and monitoring of stream, wetland, and buffer mitigation projects. Responsibilities will also include coordination and management of the western monitoring program and staff for Wildlands including agency coordination and mentoring of junior scientists. The preferred candidate should have 5+ years of experience and understand both the rules and regulations as well as the ecologic and hydrologic processes important to ecosystem restoration in the Southeastern United States. Ability to deal with long, hard field days is necessary, along with some overnight travel. Experience with regulatory agencies, GIS, field monitoring protocols, delineation, permitting, report writing, and project management is preferred.

**PLEASE SEND RESUME AND COVER LETTER BY December 7, 2018 TO:**

Wildlands Engineering- Senior Scientist, 1430 S. Mint Street, Suite 104, Charlotte, NC 28203  
resumes@wildlandseng.com, fax: 704-332-3306

The cover letter should identify your area of study, any relevant software or previous work experience, why you are interested in this position, your approximate available start date, and any other information that you feel is important. Please be prepared to provide contact information for 2 references, if requested.

### **Company Information**

Wildlands Engineering, Inc. was founded in 2007 and focuses on stream and wetland restoration, watershed planning and assessment, and water quality management. With offices in North Carolina, South Carolina, and Virginia, Wildlands Engineering provides water resources engineering, ecosystem restoration, mitigation banking, and consulting services to an array of clients, including local and state government and conservation organizations. Our dedicated, motivated, and highly-trained team has experience in all aspects of stream and wetland restoration, watershed planning and assessment, and water quality management. Wildlands Engineering is committed to a watershed and ecosystem approach to ecological restoration and water quality management, and we provide exceptional services to our clients in an uncompromisingly ethical, innovative, and time-sensitive manner.

*Wildlands Engineering, Inc. is an equal opportunity employer and maintains a drug-free workplace.*
