

Creating ecological solutions through innovative engineering.

Designer / Water Resources Professional

Wildlands Engineering is seeking a dynamic individual to join our growing company in our Charleston office. This individual will support watershed planning and the design and implementation of water quality improvement and ecosystem enhancement and restoration projects. The ideal candidate will demonstrate a minimum of two (2) years of progressive experience in a water resources field and a passion for improving ecosystems and water quality. This position will require occasional overnight travel and frequent outdoor activities.

If relevant, candidates should advertise the following qualifications in their cover letter.

- Licensure and certifications (i.e., EIT, PE, CFM, PH, PWS, etc.) that demonstrate technical and professional competency;
- Experience with ArcGIS;
- Graduate degree(s) in a related field;
- Experience with stormwater design;
- Progressive career experience and knowledge of AutoCAD Civil3D, specifically prior experience with alignments, profiles, corridors, and surface modeling;
- Experience with hydraulic modeling;
- Experience with construction document preparation and technical reporting.

PLEASE SUBMIT RESUMES AND A COVER LETTER BY JUNE 28, 2019 TO:

Email: (*preferred method*): resumes@wildlandseng.com; subject line: Charleston ENG

Fax: (704) 332-3306

Mailing Address: Wildlands Engineering, 1430 S. Mint Street, Suite 104, Charlotte, NC 28203

A cover letter is required and should identify the candidate's relevant experience and availability (to start) and detail the candidate's interest in Wildlands and their specific qualifications as they relate to this position.

Company Information

Wildlands Engineering, Inc. was founded in 2007 as a firm focused on environmental restoration of the southeast United States. With offices in North Carolina, South Carolina, and Virginia, Wildlands Engineering provides water resources engineering, ecosystem restoration, mitigation banking, and consulting services to clients such as local and state government, developers, and conservation organizations. Our dedicated, motivated, and highly-trained team members possess a combined 553 years of experience in all aspects of stream and wetland restoration, watershed planning and assessment, and water quality management. We blend our technical expertise with our knowledge of the regulatory environment to offer solutions that bridge the gap between environmental needs and economic realities. Wildlands Engineering is committed to a watershed and ecosystem approach to ecological restoration and water quality management, and we provide exceptional services to our clients in an uncompromisingly ethical, innovative, and time-sensitive manner.

Major services provided include:

- Stream, Wetland, and Habitat Mitigation
- Stream and Wetland Restoration
- Water Quality Management and Mitigation
- Watershed and Environmental Planning
- Stormwater Management

Wildlands Engineering, Inc. is an equal opportunity employer and maintains a drug-free workplace.
