

Creating ecological solutions through innovative engineering

Project Manager/Water Resources Engineer

Wildlands Engineering is seeking a dynamic individual to join our growing company in our Charlotte office. We are looking for a water resources engineer or environmental scientist/designer with a background in stream and wetland design, stormwater management, hydrologic/hydraulic modeling, construction document production, construction management, and project management. This position will involve managing projects with complex ecosystem restoration designs through the assessment, design, permitting, construction, and post-construction monitoring phases. Projects may include design of streams, wetlands, and watershed improvements; hydrologic and hydraulic models; watershed planning; and/or new and retrofit stormwater best management practices (BMPs).

Company Information

Wildlands Engineering, Inc. was founded in 2007 and focuses on stream and wetland restoration, watershed planning and assessment, and water quality management. With offices in North Carolina, South Carolina, and Virginia, Wildlands Engineering provides water resources engineering, ecosystem restoration, mitigation banking, and consulting services to an array of clients, including local and state government and conservation organizations. Our dedicated, motivated, and highly trained team has experience in all aspects of stream and wetland restoration, watershed planning and assessment, and water quality management. Wildlands Engineering is committed to a watershed and ecosystem approach to ecological restoration and water quality management, and we provide exceptional services to our clients in an uncompromisingly ethical, innovative, and time-sensitive manner.

Job Description

Key Responsibilities

- Manage technical design, budget, and schedule of complex stream and wetland mitigation projects.
- Interpret ecological site assessments and set design goals
- Oversee successful implementation of ecosystem restoration through design, permitting, construction, and post-construction monitoring.
- Effectively communicate and coordinate with team members, clients, and stakeholders.
- Meet multiple deadlines with a willingness to react positively to changes in priorities.

Qualifications

- 4 to 20 years of progressive experience working with the ecologic and hydrologic processes important to ecosystem restoration in the Southeastern United States.
- Undergraduate degree in engineering, geology, environmental science, or a related field is required. A graduate degree in engineering, geology, environmental science, or a related field is preferred.
- Licensure as a Professional Engineer (PE) or Engineering Intern (EI) or the ability to obtain NC licensure by reciprocity is preferred.
- Experience with AutoCAD Civil 3D.
- Experience with hydraulic, hydrologic, and/or watershed modeling.
- Experience preparing technical reports, construction plans and technical specifications, construction cost estimates, and construction administration.
- Must have valid driver's license.
- Adhere to company safety policy and OSHA safety procedures.

Physical Demands

- Ability to frequently walk over rough, uneven surfaces
- Ability to sustain periods of strenuous physical exertion
- Ability to lift up to 50 pounds
- Part of the job requirements and the physical demands are performed in outdoor weather conditions with frequent exposure to wet/humid conditions and extreme heat or cold. Other adverse factors may include exposure to ticks and poison ivy.

PLEASE SEND RESUME AND COVER LETTER BY APRIL 15, 2020 TO:

Email (preferred method): resumes@wildlandseng.com; subject line: Project Manager/Water Resources Engineer

Fax: (704) 332-3306

Mailing Address: 1430 S. Mint Street, Suite 104, Charlotte, NC 28203

The cover letter should identify your previous work experience, why you are interested in this position, your approximate available start date, and any other information that you feel is important. Please be prepared to provide contact information for two references, if requested.
