

Creating ecological solutions through innovative engineering

AutoCAD Technician

Wildlands Engineering, Inc. is seeking a motivated individual to join our Charleston, SC office. Duties of the AutoCAD Technician will include producing construction and as-built plans with AutoCAD Civil3D while working collaboratively with a multi-disciplinary team. This role will require occasional fieldwork and overnight travel to support data collection and to verify modeled conditions. Wildlands Engineering is seeking to fill a full-time office-based position but will consider applicants that prefer a part-time role.

Company Information

Wildlands Engineering, Inc. was founded in 2007 and focuses on stream and wetland restoration, watershed planning and assessment, and water quality management. With offices in North Carolina, South Carolina, and Virginia, Wildlands Engineering provides water resources engineering, ecosystem restoration, mitigation banking, and consulting services to an array of clients, including local and state government and conservation organizations. Our dedicated, motivated, and highly trained team has experience in all aspects of stream and wetland restoration, watershed planning and assessment, and water quality management. Wildlands Engineering is committed to a watershed and ecosystem approach to ecological restoration and water quality management, and we provide exceptional services to our clients in an uncompromisingly ethical, innovative, and time-sensitive manner.

Job Description

Key Responsibilities

- Lead construction and as-built plan sheet production using AutoCAD software.
- Effectively communicate and coordinate with a multiple disciplinary team.
- Multitask and manage deadlines with a willingness to react positively to shifting priorities.

Qualifications

- Associate's or Bachelor's degree in Computer Aided Drafting with a focus on civil design, or equivalent minimum 1 year of professional experience.
- Must demonstrate knowledge and experience in AutoCAD Civil3D generating alignments, profiles, and plan production.
- Must demonstrate experience with earthwork modeling.

Preferred (but not required) Qualifications

- Experience using ArcGIS software in a professional setting.
- Proficiency using Microsoft Excel and Word.

Physical Demands

- Remaining in a stationary position, often standing, or sitting for prolonged periods.
- Long hours in front of a computer and computer screen.
